

AL ETTISAM

UPHOLSTERY

About us

- - - - -

Al Ettisam upholstery was established in the United Arab Emirates and has been providing professional upholstery services for over 35 years. It started off as a small auto upholstery business but it has since grown into providing industrial upholstery solutions. The team is equipped with high technical skill level and the ability to bespoke covers to the customer's requirements. The company's core manufacturing competence is the conversion of roll materials into finished products.

Our Services

Auto Upholstery

This is Where it all started. Our company specializes in auto upholstery. Our team is highly capable of creating custom seats for vehicles that meet the exact requirements of the customer. With over 35 years of experience, our services are guaranteed to satisfy you.

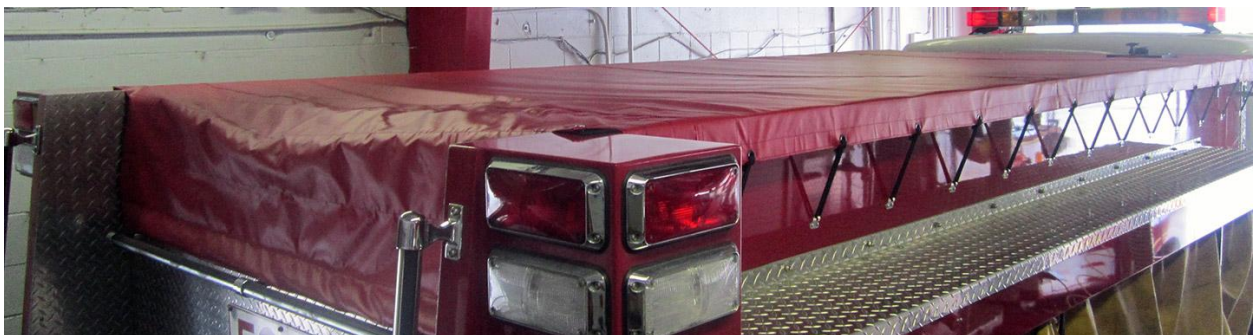

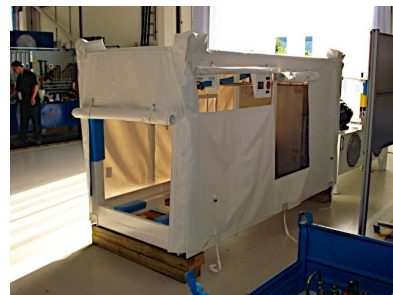

Machinery and Equipment Covers

Our company can create custom machinery and equipment cover that meets your unique requirements to protect your assets. Once we understand your needs, we can custom and tailor fit the perfect cover for you.

We use High quality tarpaulins that can keep your assets safe from dust or water. These highly durable covers are perfect for industrial environments and the added protection can increase the life of your valuable machines.

We can also create covers where visibility is required. For such requirements, we use Clear vinyl that not only provides a protective covering but it is completely transparent, Keeping the machinery or equipment visible.

Aviation

Our company has provided services to one of the top aviation companies in the country. These include, but are not limited to, **ULD cover services, Cargo nets, ground support equipment & vehicle upholstery**. We have provided our services wherever possible. Our high quality of work has ensured complete satisfaction of all our clients. Providing services to the aviation industry for over 30 years has given us a good understanding of the industry needs.
